PROFESSIONAL SUMMARY

Dedicated and results-driven Software Developer skilled in Java, C++, and Python. Passionate about creating innovative solutions to real-world problems, with interests in web development and machine learning. Seeking challenging opportunities to grow professionally and contribute to a collaborative team.

EDUCATION

Galgotias University

B.Tech CSE with AIML- *CGPA* (current)- 9.14

August 2021 – August 2025

Gr. Noida, India

St. Xavier's School

Intermediate PCM group, CBSE - *Percentage* - 82.2

May 2018 – May 2020

Ballia, UP, India

R.K Mission School

High School, CBSE - *Percentage* - 86.6

April 2016 - April 2018

Ballia, UP, India

INTERNSHIP

Intel Unnati Summer Training 2023 [↗](#)

May 2023 – July 2023

Remote, India

Role: Summer Intern

- Successfully created, trained and optimized a CNN model for classifying fashion dataset images into a number of categories with the accuracy of 92% in training and 90% in testing dataset.

PROJECTS

ChatPulse [↗](#) | •Python , NLP, Data Processing, Streamlit, JupyterLab, VS Code

Feb 2024

- A WhatsApp chat analyzing model, that gives various insights from your real-time WhatsApp group or individual chats by visualizing your chat through intuitive charts and tables.

Fashion MNIST classifier [↗](#) | •CNN, Tensorflow, keras, JupyterHub, Computer vision

July 2023

- Fashion MNIST images classifier model using deep learning trained on 70,000 images and classified the images into 10 fashion categories.

TECHNICAL SKILLS

Languages: Java , Python, C++ , HTML, CSS, JavaScript, SQL , DSA

Developer Tools: VS Code, Atom, IntelliJ IDEA, Jupyter, Google colab

Technologies/Frameworks: Version Control (Git & GitHub), NLP, ReactJS

Personal skills/Soft Skills: Teamwork, Leadership, Presentation, Adaptability, Problem Solving

CERTIFICATIONS

- CERTIFICATE OF ACHIEVEMENT in C++ - Coding Ninjas
- AWS Academy Graduate - AWS Academy Machine Learning Foundations -Amazon Web Services (AWS)
- Google Cloud Fundamentals: Core Infrastructure - Google
- Getting Started with AI using IBM Watson -IBM

ACHIEVEMENTS AND AWARDS

- Solved 300+ problems at various platforms like Leetcode, GFG, Code Studio.
- Certified with **5-days iOS Explore & Ideate Bootcamp** powered by Apple and Infosys in Galgotias University. **January 2024**
- Participated in various hackathons like **Algorithm 8.0, Dexterix 3.0** and made up to the final rounds.
